

ORIGINAL CONSULTANTS

Sustainable consulting

Original Consultants joined Zellar in 2023 thanks to a Cheltenham Borough Council and CheltenhamZero-sponsored licence programme.

Since starting its sustainability journey Original Consultants has completed energy checks and supported local charity projects reducing its energy bills and benefiting the community.

TESTIMONIAL

"Adopting the Zellar platform for us has been beneficial as it complements our ethos and our mission as a sustainable business. The dashboard is easy to navigate. I love the layout, it's not too complicated and provides a concise picture of where Original is on our journey, it's fantastic for tracking actions. The Zellar team have done some excellent work to help us get quotes from greener energy providers. It's been really beneficial; I would highly recommend it to other businesses."
